

## DeepWell Data Services

DeepWell Data Services provides powerful, web-based tools to collect, store, analyze and report vital data. DWDS supplies the information tracking tools clients and evaluators need to manage and evaluate their GEAR UP programs.

## DWDS supports data Systems for the following types of grants

- » GEAR UP (Gaining Early Awareness and Readiness for Undergraduate Programs)
- » CBAE (Community Based Abstinence Education)
- » HMI (Healthy Marriage Initiative)
- » GRAA (Grants to Reduce Alcohol Abuse)
- » USDE Mentoring Program
- » REMS (Readiness Emergency Management for Schools)
- » Elementary Counseling
- » 21st CCLC
- » Full Service Community Schools

DWDS is located in Cache Valley, Utah.

## GEAR UP Data System

### Profile Attendance Tracking

The DeepWell GEAR UP data system enables your program to track GEAR UP activity attendance at an individual level. Data entry personnel are able to track student activity attendance, staff professional development and services provided to parents. Student attributes such as reduced and free lunch, IEP, and LEP are also tracked and attached to each profile. Additional attributes defined by your project can also be tracked and attached to any profile. Profiles can be manually entered and updated or DWDS can bulk upload an entire student population pulled from a school's SIS.

### Online Surveys & Assessments

The DWDS survey software allows you to administer your semi-annual surveys online for instant feedback and dynamic reporting. Data from online surveys is instantly accessible to project directors and evaluators (if desired). Survey summaries as well as raw data can be download in various formats for viewing, sharing, and evaluation purposes.

**3 In what grade are you?**

9th grade (Freshman)

10th grade (Sophomore)

11th grade (Junior)

12th grade (Senior)

### School Attendance, School Grades & CRT

Track student school attendance, grades, and state assessment scores at the individual level with easy to use DWDS data entry tools. Or bulk upload them at the end of each school term from any Excel or comma delimited file.

IV 3 - Services Provided to Students

Type of Service	Number of Students in the GEAR UP Cohort Who Received the Service	Average Hours of Service Per Participant Receiving the Service Per Year
GearUP - College visit/college student shadowing	49	3.05
GearUP - Couns/advising /academic plan/career couns	804	0.71
GearUP - Cultural event	102	3.53
GearUP - Educational field trips	177	3.73
GearUP - Enrichment	302	2.77

## DeepWell GEAR UP APR Builder

Run the DWDS APR Builder at any time to verify

and monitor the health of your project. At the end of each reporting period, the numbers for sections IV- VI of the APR can be created quickly with just a few clicks of the mouse. The DeepWell GEAR UP APR Builder also allows you to pull data directly from surveys and combine it with attendance data for a complete and accurate APR.

## DWDS GEAR UP Features & Packages

The table to the right contains all the features available through the DWDS Teaching American History Data System. Pricing will vary on an individual project level and each system can be tailored and customized to meet the individual needs of your project.

Please contact DWDS for pricing, package, and customization information.
